

Searching Scriptures in ATLA Religion Database

This handout shows you how to search for articles on specific books, chapters, and verses from the Bible in ATLA Religion Database.

1. Log in to ATLA Religion Database.

- Click the Scriptures link at the top of the page.

- All the books of the Hebrew Bible and New Testament appear in order.

2. Find the book you need.

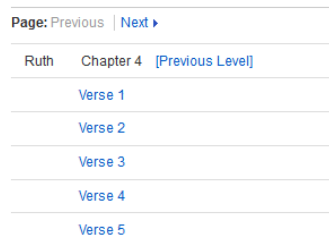

- To search for articles about the entire book, click the link.

- To find articles about a chapter within the book, click [Expand].

- To find articles about specific verses, click [Expand] again.

3. If necessary, search within your results by using the additional search bars on the results page.
